Outdoor Lifestyle

Comfort - Luxury - Relaxation

Experience the finest in outdoor living. Our new collection brings together eye-catching designs that are spacious, comfortable, and built for relaxation. From inviting lounge and dining sets to versatile gazebos and daybeds, SUNS offers everything you need to create your ideal outdoor space. Complement your setting with our accessories: cushions, poufs, carpets, solar lighting, butler trays and candles.

Elevated outdoor living, timeless comfort

SUNS embodies a refined approach to outdoor living, combining elegance with functionality. Our designs are crafted to create spaces that enhance personal enjoyment and invite relaxation. Embrace the luxury of high-quality materials and thoughtful design details, all aimed at transforming your outdoor area into an inviting extension of your home.

Balance between form and function

We are constantly looking for the perfect balance between form and function, in combination with the sustainable use of materials. This results in outdoor furniture that is characterized by absolute comfort, high-quality materials and a long lifespan.

Highlights collection 2025

Discover the refined trends shaping our 2025 collection: organic shapes that bring a soft, flowing aesthetic to outdoor spaces, enhanced by accents of bouclé fabric in light, inviting tones. Embrace the laid-back elegance of low dining, designed for those who value comfort and shared moments. This year, we also feature GRC (Glassfibre Reinforced Concrete) in select pieces, blending strength with a modern edge. Each element in our collection combines sophistication with thoughtful design, ensuring your outdoor environment feels both timeless and modern.

Redefining outdoor living worldwide

SUNS is globally available, with shops in the Netherlands – where our head office is based – across Europe and even as far as America and Australia.

You'll find SUNS at select garden furniture and home decor specialists, places that value quality and exclusivity. We also collaborate with landscape architects and project developers to offer personalized design and furnishing advice. SUNS Experience Centers are expanding rapidly worldwide, providing more opportunities to discover our unique approach to outdoor living.

Visit a SUNS Experience Center

Curious to explore the entire SUNS collection in a stylish, inspiring setting? Visit one of our SUNS Experience Centers, where you can see, touch, and try all our products while getting expert guidance from our team. Discover our designs, explore materials, and understand all the possibilities, helping you to make the perfect choice for your outdoor space. We recommend scheduling an appointment on our website to ensure a personalized experience.

Your style

A suitable match for every style

SUNS has four different styles: Pure, Allure, Urban and Classic. Each style has its own distinctive features, from classic simplicity to trendy and unique. Depending on your personal taste, there is a suitable match for every one. What is the ideal style for your outdoor space?

Lounging & dining

An extension of your interior

A complete outdoor space calls for inviting lounge and dining sets, blending seamlessly with your indoor style. More than ever, our gardens have become natural extensions of our homes, where we create atmospheres that are both elegant and comfortable. With thoughtfully designed furniture and cozy accessories, we craft outdoor spaces that invite us to unwind and enjoy the open air for as long as possible.

Lounging is relaxing

To fully enjoy your outdoor space, a lounge set is an absolute must. Lounging equals relaxing. Comfortable cushions and high-quality materials make a SUNS lounge set the ideal outdoor furniture to unwind on. Remarkable in the SUNS collection are the designs with extra low and deep seats, also known as 'low loungers'.

This trend is reflected in the popular platform lounge sets, where tables and the seating area are a seamless and sleek ensemble.

From traditional dining to 'low dining'

A decent dining table is solid and stylish. SUNS dining tables can withstand a drop of rain. The same goes for our dining chairs. And years of experience, refined design, and high-end materials provide SUNS dining chairs with an unequalled seating comfort. SUNS has both regular dining chairs as well as stackable ones, or with an adjustable backrest. But 'low' is the latest trend in dining. The comfort of a lounge set is combined with the practical aspect of classic dining. Ideal for hours of dining and relaxing with friends and family.

You create

Design your perfect lounge experience

With many of our lounge set series, the 'You create' concept offers plenty of options for creating the ideal set-up for your lounge set. Just mix and match the different combinations of 2-seater and 3-seater sofas, loungers, and matching tables.

What about a loungy corner set-up with a chaise longue, or an Ibiza set-up with two separate sofas facing each other? When you have chosen your basic configuration, you can add various armrests, side tables and hockers.

Let your creativity lead the way to a lounge set that feels truly yours.

Cushions

Water repellent fabric

At SUNS, we know outdoor cushions need to stand up to unexpected weather. That's why every cushion in our collection is crafted with water-repellent fabric, designed to keep your outdoor setup looking its best, rain or shine.

Textile

Innovation in weather-resistance

SUNS uses Sunproof® fabric for its outstanding qualities, designed to thrive outdoors. This high-quality textile resists weather, fading, wear, and UV exposure, staying beautiful and comfortable season after season. Easy to clean and maintain, it's made to keep your outdoor space effortlessly stylish.

Teak

The finest type of wood

Strong, durable, maintenance free and extremely weather-resistant. Teak is probably the finest type of wood available. Aging nicely in warm grey tones. What beauty nature brings! SUNS works exclusively with certified teak, originating from controlled plantations in a.o. Indonesia. Our craftsmen combine traditional workmanship, passion and cutting edge process techniques to create furniture of excellent quality and looks.

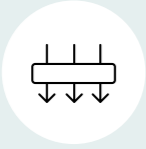

Aluminium

Industrial quality

Built for strength and designed to last, aluminium is the perfect material for outdoor living. With a thickness of 1.5 mm above industry average, our aluminium frames offer enhanced stability and strength. Each piece is double-coated, ensuring long-lasting weather resistance and an elegant finish that remains attractive season after season.

Core

Rapid drying technology

At SUNS, comfort and durability come together with our Fast Dry Foam technology. Designed with a spacious cell structure, this innovative core allows rainwater to flow through the cushions effortlessly, promoting quick drying and refreshing air circulation. Built to be weatherproof, these rapid-drying cushions stay ready for use all year long, inviting you to enjoy your outdoor space whenever you please.

Rope

Premium acrylic

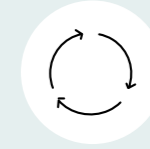

Next to its elegant looks, ropework made from premium quality acrylic offers excellent outdoor properties. We use premium acrylic ropes in our furniture. The ropes are strong, durable, weatherproof, colorfast, easy to clean and dry quickly. Thanks to its tight weaving, ropework seats offer a pleasant sitting comfort.

Neolith®

Nature meets innovation

Neolith® is crafted from 100% natural raw materials, combining sustainability with durability. Through advanced sintering and high-pressure technology, it becomes a dense and scratch-resistant surface that withstands all weather conditions - from UV rays and moisture to extreme temperatures. Perfect for table tops Neolith® retains its sleek appearance year after year.

PET

Recycled plastic bottles

SUNS embraces circular design with our PET line, using recycled plastic bottles to create high-quality outdoor and indoor essentials. Through an innovative process, these bottles are transformed into fibers for cushions, poufs, and carpets. The result is a fabric that feels soft yet stands up to weather and water, offering lasting quality and comfort.

Designed for relaxation

Lounging & dining collection

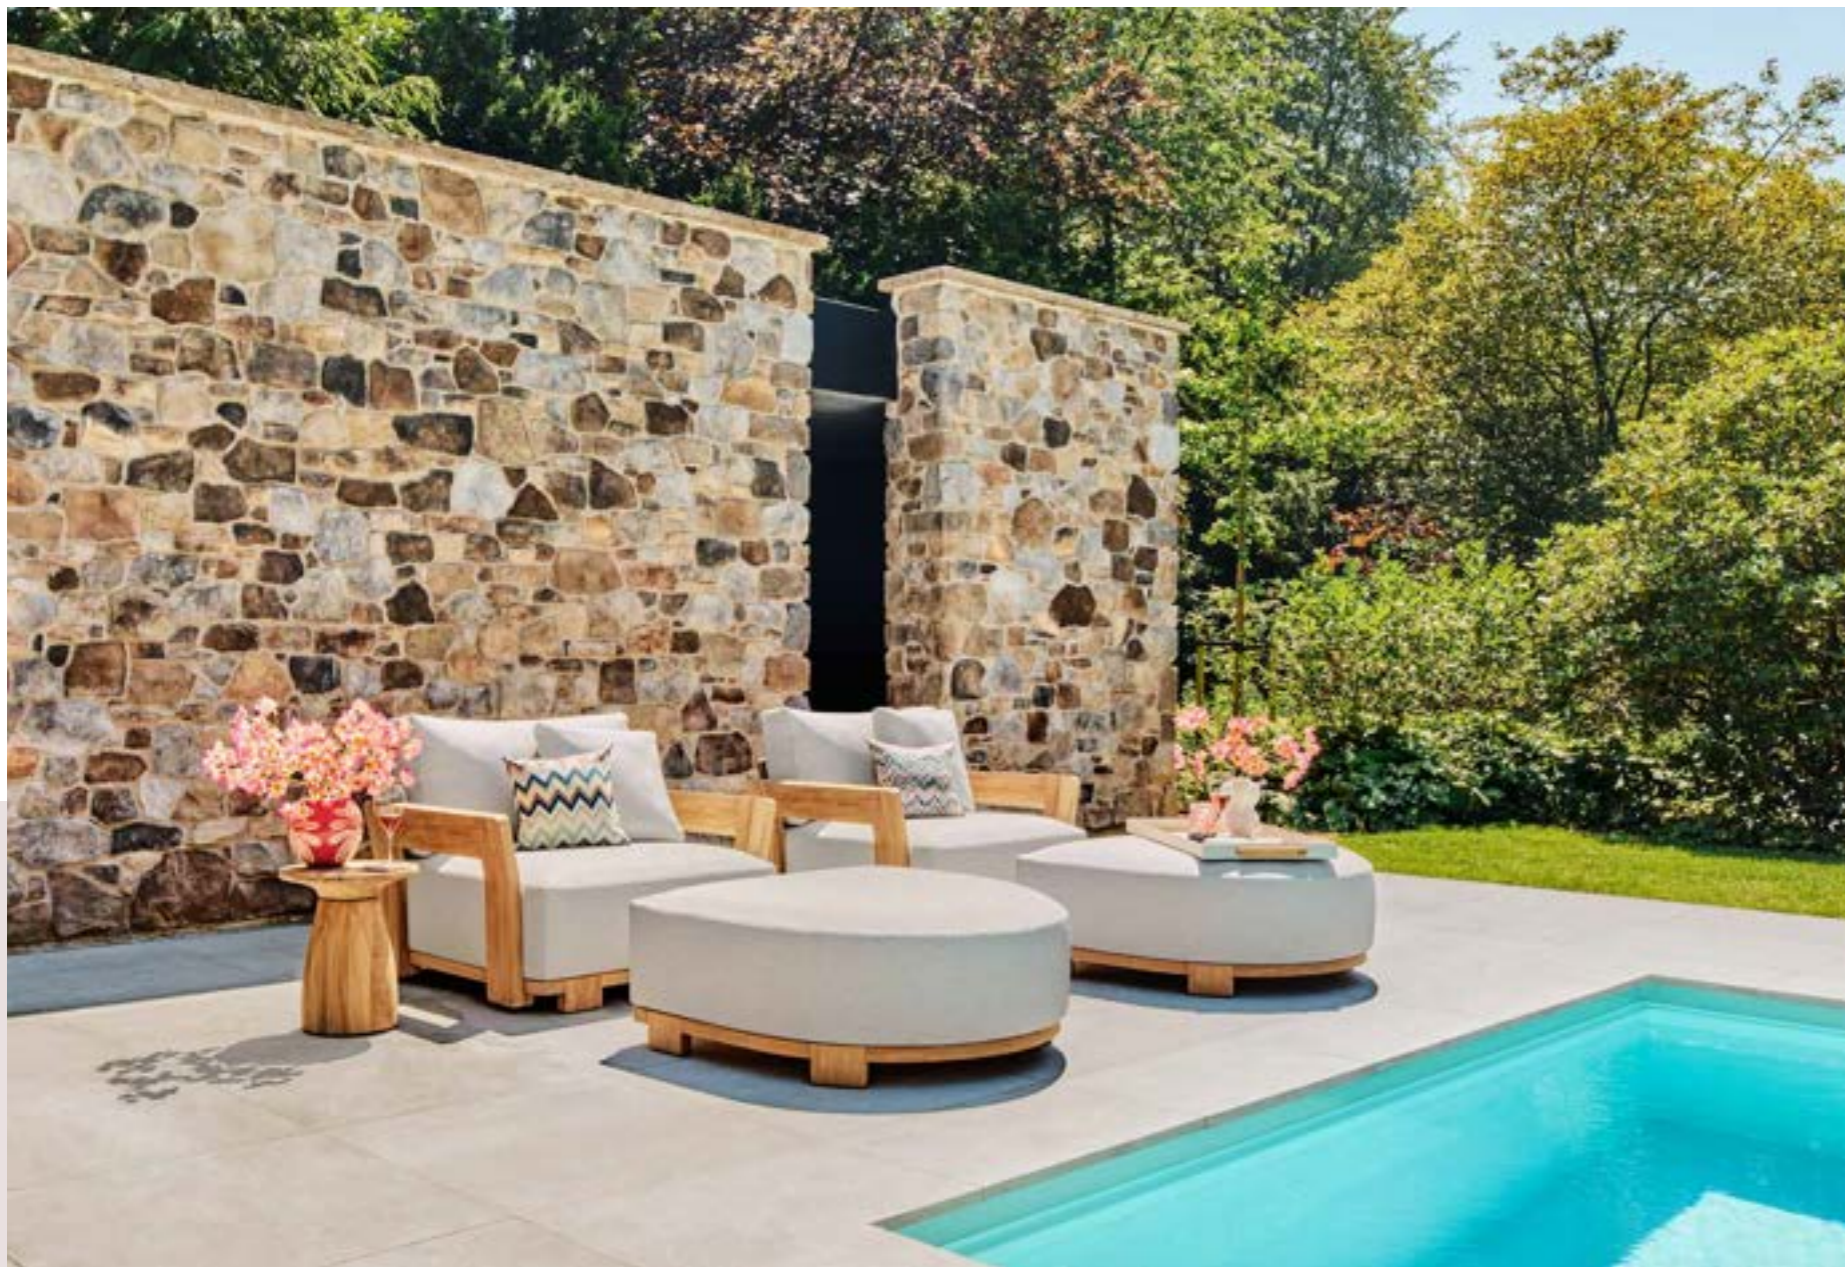

Pure

Lounging & dining

Inspired by the beauty of nature, the Pure series embraces the charm of solid teak, blending seamlessly with organic shapes and materials.

Every design is thoughtfully created to inspire a sense of natural elegance, where flowing lines meet refined outdoor luxury. The combination of unique design elements and premium materials creates an atmosphere where comfort and character come together effortlessly, inviting you to unwind in style.

Elegant crafted with teak, bold shapes and luxurious cushions. This lounge set brings style and comfort to any outdoor setting.

For singer and entertainer Jan Smit and his wife, relaxation and style are in perfect harmony. At their home in Spain we created an outdoor space that balances comfort with elegance. From lounging at the poolside to hosting friends around the outdoor dining area, SUNS furniture enhances every moment spent outdoors. With a blend of rope accents, sustainable outdoor lighting, and refined materials, this space reflects their personal style and offers the ideal setting for unwinding.

Jan Smit

The warmth of summer relaxation

At Anouk en Edwin Smulders' stunning waterside home, modern design meets classic elegance. The sunny veranda is an ideal spot to soak up warm summer days, while a stylish covered dining area provides a cozy, shaded place for meals with family and friends. In other corners of the garden, the sofa sets create a relaxing area—perfect for unwinding after a busy day.

Allure

Lounging & dining

Experience the ultimate in outdoor luxury with Allure, where comfort meets sophistication. Sink into the royal cushions and embrace the ultra-wide, deep seating that invites you to unwind in style.

Crafted with robust frames and premium materials, each piece embodies elegance and durability. The Allure style transforms any garden or terrace into a chic retreat, with designs that catch the eye and elevate your outdoor space to new levels of refinement.

The art of sophisticated lounging.

Sophistication in the details

Wout Bekkers | Designer at SUNS

We have a creative approach toward comfort and experience.

At SUNS, we believe outdoor spaces deserve the same level of elegance and functionality as interiors. This philosophy is reflected in our 2025 collection, where soft color palettes, natural materials, and organic shapes come together to create inviting and stylish outdoor environments.

We think that outdoor spaces could be as attractive as indoor spaces. Therefore, we create products that require little maintenance and offer our users every convenience. In addition to quality and comfort, it is our sophistication in design that sets SUNS apart from other brands."

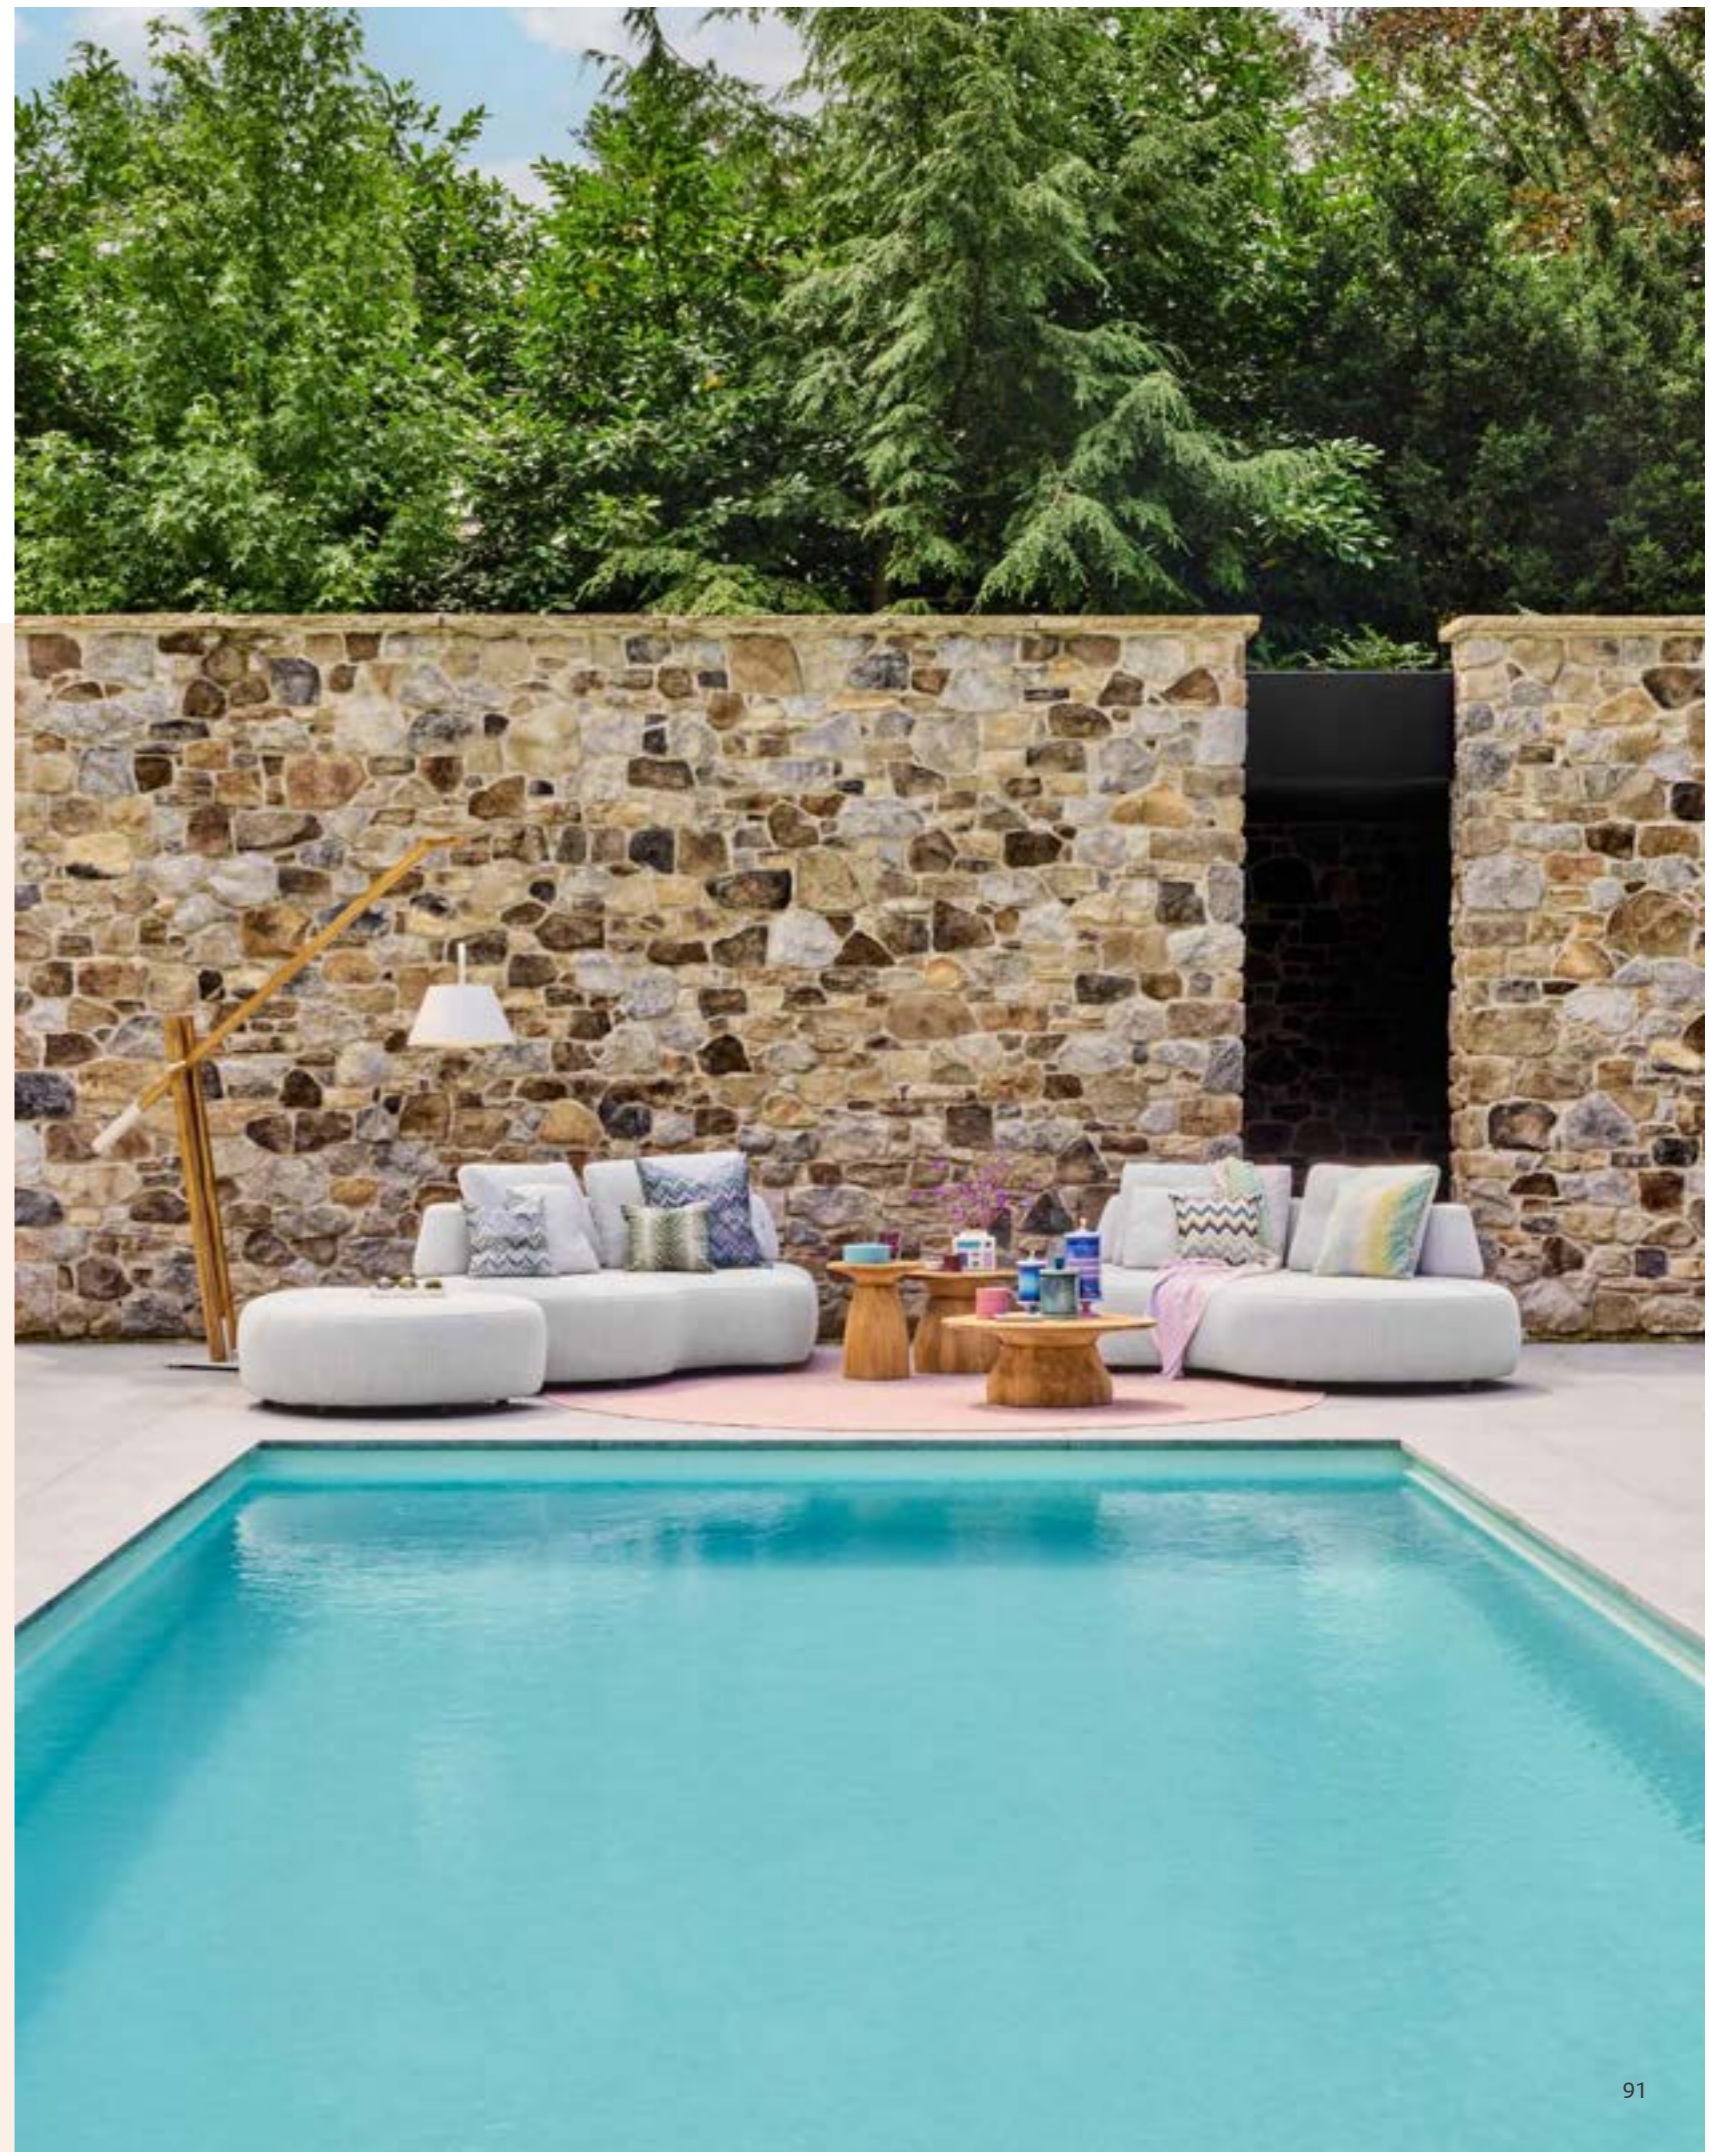

Wout Bekkers: "We do not see ourselves as a garden furniture brand, but much more as a lifestyle brand. We are a brand for people who consciously choose for luxury outdoor furniture and lifestyle products, and we offer the possibility to add a personal touch. Our credo is therefore 'Maximalism'. We translate this into remarkable designs and generously sized furniture. Lounge- and dining sets that catch the eye and offer maximum comfort. Where possible, we provide the designs with functionalities that increase ease of use. We continuously search for innovative techniques and materials to further improve our products and the user experience.

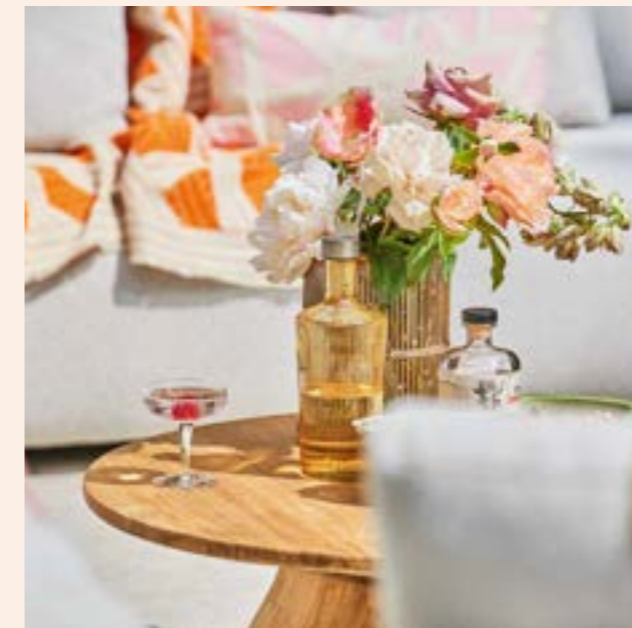

As a designer you hope to give users the feeling that real attention has been given to the design. I try to add a deeper layer to each product, a hint that every detail has been thought through. A good example is the Palermo dining table. We incorporated a subtle play of lines in both the design of the table top and the design of the frame, making the table exciting to look at. We also use this tension by combining different textures in the upholstery of our outdoor furniture.

The seemingly frameless design of the Blocchi lounge set is an irresistible invitation to cherish its comfort.

Blocchi's organic form invites you to sink into pure relaxation, embodying a balance of elegance and ease.

Elevate your outdoor sanctuary with designs that invite relaxation and refined comfort.

Royal seats and scatter cushions
to create your ideal position.
This is lounging!

The stylish design, premium fabric and cushions offer you a soft touch and warm welcome.

A brief history

From heritage to modern outdoor living

A brief journey through 12 years of milestones. Yet, the story began long before that. With deep roots in garden furniture and entrepreneurship, this legacy is woven into the brand's DNA—a tradition shaped by family history.

Family History

1960 - 1988

SUNS founder Patrick van Rhienen comes from a long line of garden furniture entrepreneurs. His grandfather, Ad van Rhienen, father and uncle, Ad and Alfons, were pioneers in the industry. Innovation has always been at the core of the family's business. In 1980, the family's brand Jardin revolutionized the market by introducing the first fully plastic garden chair, a groundbreaking design that replaced traditional metal and wood frames. This innovation, mass-produced through injection molding, set the stage for a new era of outdoor furniture.

SUNS History

2009

SUNS began as Sunsit, the company behind the SUNS brand, initially focused on creating private label collections for leading garden furniture chains in the Netherlands. This early stage laid the foundation for the company's commitment to quality and design innovation in the outdoor furniture industry.

2013

SUNS debuted at the SPOGA trade fair in Cologne, standing out with innovative design, craftsmanship, and a unique aesthetic. By combining material expertise with creativity, SUNS quickly became a trendsetter with the motto: *Sharing the sun together*. Recognizing the growing interest in wicker, SUNS introduced the Ferro lounge set with a Mix & Match program, allowing for personalized setups. Expanding on this, the brand embraced new materials like rope and steel, reinforcing its

reputation for innovation. In 2015, the SUNS Isla lounge set, with its award-winning low seat height of 35 cm, became a key piece in the brand's evolution.

2018

SUNS embraced flexibility, breaking away from the traditional model where manufacturers dictated outdoor style. SUNS is starting to collaborate with influencers, transforming outdoor spaces for personalities like Kim Kötter and Jaap Reesema—an approach that has been a great success. With the YOU CREATE collection, SUNS introduced unmatched versatility, giving customers the freedom to design their perfect outdoor space with modular options such as 2-seater and 3-seater sofas, loungers, and matching tables

2020

A new horizon. SUNS has transformed from a garden furniture wholesaler into a global outdoor lifestyle brand with its own style. Bringing indoor-style sophistication to outdoor living. SUNS now offers products traditionally found inside, including solar lamps, vases, pillows, poufs, carpets, and serving trays—all designed for outdoor use. To complete the luxurious outdoor experience, SUNS also offers elegant gazebos.

2024

SUNS continues to set itself apart from traditional garden furniture brands. With the opening of experience centers worldwide, we are bringing the SUNS brand to life in new, exciting ways, inviting customers to explore our world of innovative outdoor living. Today, we draw inspiration from our history and traditions, seamlessly blending them into our current designs, ensuring that each piece reflects both our legacy and the evolving trends of outdoor living.

Our core values

SUNS, a brand of Sunsit

Design, sustainability, and availability. At SUNS, we create unique, in-house designs that blend innovation with craftsmanship. Our commitment to sustainability and fast product availability ensures that we deliver quality outdoor furniture, always.

At SUNS, every product is designed in-house, making each piece truly unique. Our dedicated designers create original, stylish outdoor furniture that stands out for its quality, craftsmanship, and innovative design. By staying true to our vision, we ensure that our furniture is not only beautiful but also one-of-a-kind.

Sustainability

Beyond quality, we're dedicated to responsible business practices. We continuously innovate with eco-friendly materials, offer durable designs, and reduce our carbon footprint with initiatives like solar-powered facilities. This approach has strengthened our reputation as a trusted brand in outdoor living.

Product availability

Because we prioritize customer satisfaction, we are always focused on product availability. Our dealers are empowered to showcase the collection, place orders, and re-order directly from local stock. Therefore we can ensure fast delivery.
